

To fix in time the first days of your baby's life or your wonderful months of pregnancy, treat yourself with a maternity or baby photo shoot and keep these memories forever! It is possible to take the photographs indoors, in the baby's room, in the studio or outside at the location of your choice. The photographs can be conventional or have a concept, and they are delivered on a DVD. I can go to your house or you can come to my place of business in small groups.

Optional:

- Albums
- Photo enlargements
- Reproductions on canvas (made by an artist painter)
- Etc.

Choice of:

- Color photos
- Black-and-white photos
- Sepia photos
- Photos with a specific lighting
- Etc.
